Elizabeth Samuel

FRONT-END DEVELOPER

Debugging is like being the detective in a crime drama

where I am also the murderer!
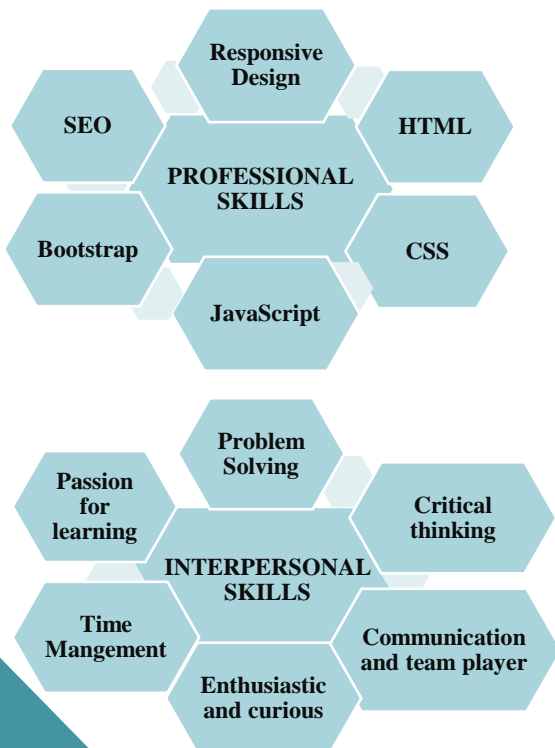

ABOUT ME

Results driven and creative front-end developer. Following six years of dedicated service in the hospitality industry, looking for a new challenge involving my creative and investigation abilities.

One with the right attitude who is focussed on resolving issues and seeing projects through with a focus on converting creative design into clean and explicit code.

Languages spoken: English – native
Hebrew – conversational
